<http://html.adobe.com/webstandards/>

The image shows a browser window displaying the 'Web Standards | Adobe & HTML' page. The browser's address bar shows the URL 'html.adobe.com/webstandards/'. The page header includes 'Adobe & HTML' and navigation links for 'Web Standards', 'Open Source Projects', and 'Tools & Services'. The main content area has a purple background with the heading 'Champion' and the text: 'Along with the community, we're developing new standards and advancing existing standards. Check out what our growing team is up to.' Below this, the heading 'Explore the future' is followed by the text: 'We want to make the web more wonderful by championing features in the W3C and engineering those features directly in open browser engines like **WebKit**. Here is a sample of the features we are working on:'. Three icons are shown at the bottom: a document with a purple arrow pointing to another document, a wavy document, and a document inside an oval. A large, pink, 3D-style 'Coming Soon!' text is overlaid across the center of the page.

## Champion

Along with the community, we're developing new standards and advancing existing standards. Check out what our growing team is up to.

# Coming Soon!

## Explore the future

We want to make the web more wonderful by championing features in the W3C and engineering those features directly in open browser engines like **WebKit**. Here is a sample of the features we are working on:
